

Vehicle Platform Lifts SA 250

CEDAS is specialized in solutions to **overcome the architectural barriers** especially in transportation and to this purpose it offers a range of products which becomes wider and wider.

All **CEDAS** products are good solutions for the **adaptation of special vehicles** like ambulances, vehicles for disabled people, buses, taxis and commercial vans both for private or public usage.

All these devices enable the safe access and transportation in a comfortable way.

CEDAS products are all CE marked and are compliant with the applicable European Community directives. They are also compliant with the electromagnetic compatibility rules. Each of them is delivered to the customer with the necessary paperwork required by the **Quality System ISO 9001:2008** and **Certification for medical device ISO 13485:2012**.

Vehicle Platform Lifts SA 250

SA250 Lift

The Single Arm lift SA 250 is particularly recommended to adapt small vehicles thanks to its reduced dimensions.

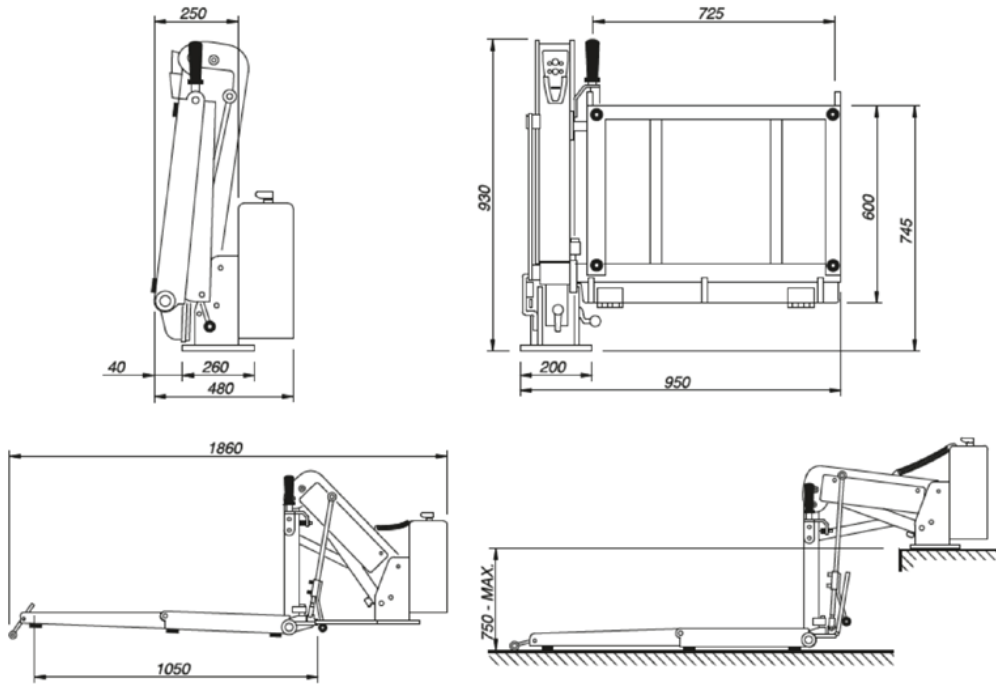

- Lifting platform entirely in aluminium with anti-slip surface.
- Semi-automatic operation.
- Cabled remote control.
- Emergency lever for manual operation.
- Safety stopping plates.
- Anti-overturn safety device.

STEPS

The company offers a range of retractable steps for professional use.

The steps help people getting off the vehicle by reducing the gap between the ground and the floor. They allow the maximum safety also to reduced mobility persons.

Our steps have a patented operation system and are compliant with the applicable directive of the European Community. They also comply with the electromagnetic compatibility rules.

The steps have a 24 months warranty and have a good resistance to rust, dirt and atmospheric agents.

CEDAS also offers different types of fixing brackets to fit the step to the vehicle frame.
